Presents

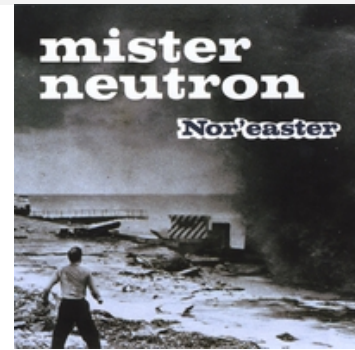

MISTER NEUTRON - NOR'EASTER CD

NOR'EASTER is the third studio release by the East Coast's best, fastest and most creative surf/instrumental trio, Mister Neutron.

NOR'EASTER is basted in everything that makes this band so freakin' special: creative, original modern-surf melodies, lightning-fast playing and a subtlety and tightness that comes from playing together for 25 years. Thrill to the ferocious double picking, the chilling glissandos and the trem-bar bends! Gawk and grin at some of the best instrumental rock of 2008! Yes, it's that good.

NOR'EASTER showcases several intro-rock styles, including modern and classic surf, a slack-key-inspired acoustic tune, Hammond-organ-drenched spy rock and spaghetti western via a new arrangement of *Hang 'Em High* from the Clint Eastwood film of the same name. And although it's packed with East Coast references (Point Pleasant, Sea Girt, Tiki Barber), **NOR'EASTER** will have people doing the Neutron Stomp from coast to coast, down into Tuscany, Antigua, Weisbaden and Indochina! Maybe even Rockville, Maryland!

NOR'EASTER is the perfect soundtrack to everything – and, yes, we mean EVERYthing – you'll do this summer. Mister Neutron has been playing together since Aug. 11, 1984, when they all sported mop-tops and bad T-shirts. The band is Damian Fanelli (guitarist and writer – check out his Dave Wronski feature in the February 2008 issue of *Vintage Guitar*), Tony Fanelli (bassist and lover of fine things) and Drew Paradine (drummer and champion mouser). They all live in New Jersey.

Track Listing:

1. The Big Island
2. Nor'easter
3. Tahiti Throwdown
4. Hornet's Nest
5. Neutron Summer
