THE NEMATOADS - SPY CAR MECHANIC CD

The Nematoads are an exciting four-piece instrumental surf-rock combo from Austin, Texas. Not one to sit still, the Nematoads are back with the follow-up to their smash 2007 CD *Five Guns West*. The new one's called **Spy Car Mechanic**, and it features 13 top-fueled, raucous rock & roll, surf, and spy numbers that are sure to blow you away.

The Nematoads have Ted James rippin' it up with his edgy surf-punk guitar, The Pope pushin' the redline with his powerful solid bass grooves, Tiger Anaya adding massive amounts of spice with his trumpet, and George Pestana driving it all home with a drum sound that's bigger than life!

This is modern surf with a heart that beats all – six-string action that blends the classic sounds of the Ventures and Davie Allan & the Arrows with the surf-punk of the Dead Kennedys, the twangy madness of Shadowy Men on a Shadowy Planet, and the sonic attack of the Pixies.

Spy Car Mechanic is a 13-song blast into the world of espionage via the beach and the race track. Catch the ironic hypersonic wave of the Nematoads live and prepare yourself for a very different type of Austin show.
